## Lighthouse PCA

---

**Mission Statement:** The mission of Lighthouse Private Christian Academy is to inspire students to have a love and joy for learning, for a lifetime, by providing a transformational, Christ-centered education.

**Lighthouse Philosophy:** To have a love for Christ, exhibiting positive discipline, and integrating “hands-on” education into our curriculum.

Lighthouse Academy began in 2004, directly after Hurricane Ivan devastated our coast. In response to the schools that were shut down at that time, Lighthouse emerged. Since then, we have grown from 18 pre-k students in one small room in a back of a Church to 5 large campuses in Santa Rosa and Escambia counties. We utilize almost 40,000 square feet while serving students from age 4(VPK) to age 18(12th grade). We are a not-for-profit 501c3 educational organization.

## Lighthouse COE Program

---

Lighthouse Private Christian Academy has expanded exponentially since 2004. All campuses are quickly approaching capacity. These facts reveal many things, among them being the sincere desire parents have for quality education that stays true to their family values.

Every child, however, does not excel in a classroom setting. Every state does not have a Lighthouse PCA campus. These two hurdles have been, in part, a driving force behind the creation of the Lighthouse PCA Christian Online Education (COE) Program.

Many parents would like the opportunity to homeschool their students. The biggest hurdle in that process is finding accredited teachers to both test and assign placement for the students in these families. The COE program removes this hurdle as ALL teachers associated with Lighthouse Private Christian Academy (LPCA) have completed their Master Degrees in teaching and thus, are accredited teachers.

## LPCA—COE Program

---

With the LPCA COE Program, parents are able to have a partner with a Christian school in the complete education of their student. With the personalized curriculum choices, parents are able to work with the teachers in developing a plan that meets the student at their level of academia and building toward an on-level or accelerated program. No child is the same; why should their educational materials be?

We will be happy to discuss all options as it pertains to the needs of your student as well as tuition costs, discounts, scholarships and more. Our chief objective is to be a partner with you in fostering a nurturing and positive educational experience. We look forward to hearing from you and having you join our growing LPCA family!
